Niki Beck

Senior UI/UX Designer · Front-End Developer

DESIGN

Figma · Atomic design systems · Auto layout · Advanced prototyping · Illustrator · Photoshop · Premiere Pro · Lightroom · WordPress

DEVELOPMENT

React ecosystem

Component architecture · Hooks · Context API · React Router · State management · REST API integration

Languages & tools

HTML · CSS / Sass · JavaScript · Git · Bootstrap

RESEARCH & QA

Contextual inquiry · User interviews · Sentry · Cross-browser & device testing · Hotjar

AI & EMERGING TECH

Claude · Figma Make · Replit · Notion AI · Midjourney

EDUCATION

B.A. Digital Media & Design

Southeastern University

Front-End Development Bootcamp

Advanced React & JavaScript
In progress

Full-Stack Development Bootcamp

HTML, CSS, JS, React, MySQL · 2020
Final Project Winner — Tasky App

PROFILE

Senior UI/UX designer and front-end developer with 8+ years designing and building digital products — B2B applications, consumer-facing websites, and design systems. Currently leading all product design at Trinity Custom Apparel.

EXPERIENCE

Senior UI/UX Designer

Jan 2022 – Present

Trinity Custom Apparel · Remote

- Lead designer across all digital product needs — from warehouse operations tools to client-facing B2B applications — shipped to production
- Designed and built Final Shipments Manager, a touch-first tablet app for warehouse workers: reduced shipment workflow from 8+ taps to 2-3, and new worker onboarding from a half-day to 30 minutes
- Built and maintained an atomic design system in Figma with React component handoff documentation, reducing design-to-dev rework and ensuring brand consistency across all products
- Partnered with engineering to integrate Sentry QA testing into pre-release review, proactively resolving UI/UX issues before they reached production
- Collaborated with developers to build reusable React components directly from Figma design tokens, accelerating delivery cycles
- Designed Cloud Closet dual-mode catalog interface, solving a dual-audience problem that increased field adoption by sales representatives

Web Designer & Developer

2018 – 2022

Hamburger Creative · Birmingham, AL

- Sole designer-developer on all client projects — owned discovery, visual design, front-end build, and launch end-to-end across 5+ industries
- Built responsive React interfaces integrating client APIs, animations, and CMS platforms including WordPress and Shopify
- Translated static design concepts into production-ready React components with efficient rendering and cross-device compatibility
- Managed multiple concurrent client engagements, balancing design quality with technical execution and client communication
- Mentored junior designers on responsive design principles and front-end development best practices
- Produced photo and video assets aligned with each client's brand, delivering cohesive digital and print campaigns
